

Branford Supply Ponds Fish Report

5/10/2016

The 2016 alewife run is continuing with 126 fish counted in the past week. This brings our 2016 season-to-date total to 753. If the trend keeps up for another week or two, we could double last year's total.

Don't forget - **World Fish Migration Day is May 21!** This is an international celebration of migratory fish. There are various activities planned throughout the region, including one at the Supply Ponds! Come to the Supply Ponds from 10:30 – 3:00 PM for a tour of the fishway, educational talks by Bengt Kjellberg, a fishery expert from Sweden and Branford, and Tom Cleveland, a river herring advocate and restoration specialist. View the inside of one of CT's electronic fish counters! Visit <http://www.worldfishmigrationday.com/home> and click on "Events" to see a map 'pins' for all 360+ worldwide events including the Branford Supply Ponds tour!
